LGBTQ+ Youth Center

This culturally-based literacy program focuses on helping youth maintain and grow their literacy skills, self-esteem, social-emotional skills, and a love for learning. The program encourages scholars to embrace their cultural history and engages in activities that foster mental wellbeing and resilience.

CDF Freedom Schools

This year-round program provides a judgement-free place for children to create and practice a toolbox of skills they can use in social settings. Groups participate in fun activities such as art, music, games, and community outings as a way to develop critical life skills needed to thrive.

Social Skills Group

OUR PROGRAMS

Expressive arts programs include prevention groups and therapy using music, drama, and art. Youth have the opportunity to express emotions, imagine the impossible, and process life's difficult situations even when they find words just aren't enough.

Expressive Arts

Community based services at Tanager meet youth and families where they are, often at home or in school. We create a customized treatment plan for each youth we serve. We help families handle difficult behaviors and emotions by teaching them the skills needed to manage mental health challenges.

Community Based Services

Outpatient services offer tools families need to overcome challenges together. Where others see obstacles, we see opportunity. Through compassionate, comprehensive treatment, we give children, teens, and families the best chance to overcome their hurdles and build a brighter future.

Outpatient & School Based Treatment

Tanager's inpatient treatment programs provide needed structure, safety, and compassion youth to overcome their challenges. Youth who have experienced hospitalization or other intensive care have a chance to flip the script. Tanager empowers them to return home to lead happier, healthier lives.
